Registration: \$85 per student / supplies included / contact: Andersenjulia2@gmail.com

Have you ever wanted to destroy something? Destruction can be beautiful. This 3-week series introduces the Altered Book technique, an expressive art form specifically for high school art students. Students will learn a new technique each week for transforming the pages of a found or discarded book. No experience necessary- experimentation welcome! Classes taught by Baltimore County Arts Guild artist in residence, Julia Andersen BFA, MA. Julia is a MICA alum and current Towson University faculty. She has over 20 years experience using the arts for expression with children, teens and adults.

STAY TUNED BCAG's First Annual Beaux Arts Ball this Spring

The Beaux Arts Ball is the annual costume ball traditionally given by the students of the École nationale supérieure des Beaux-Arts in Paris in the spring, in the École building on the rue Bonaparte overlooking the Seine. Its reputation for fabulously designed costumes and decorations encouraged imitators in American cities. In 1931, in New York, famous architects dressed up as their buildings and today, many American art and architecture schools hold similar costume balls. The tradition will continue, with BCAG's first annual Beaux Arts Ball. Watch for details in next month's newsletter!
